**IMPACT OF 2018 TRENDS:** "The national awareness campaigns for skin cancer detection and prevention is having a positive impact on our industry. Patients have become more aware of the importance of taking care of their skin, the largest organ in the body. We are seeing an increase in annual skin checks and patients coming in with skin concerns."

**SURPRISING FACT:** "We accept every insurance, no matter what they reimburse, meaning we do not pick and choose only the best payers. I feel it is our responsibility to help as many people as possible."
